# 1991 ANNUAL INDEXES

## Textile Research Journal

## Volume 61

**AUTHOR AND TITLE INDEX, pp. 777–782**

**SUBJECT INDEX, pp. 783–790**

| MONTH | PAGES |
|---|---|
| January | 1–60 |
| February | 61–122 |
| March | 123–184 |
| April | 185–246 |
| May | 247–308 |
| June | 309–370 |
| July | 371–432 |
| August | 433–494 |
| September | 495–556 |
| October | 557–618 |
| November | 619–696 |
| December | 697–790 |

## AUTHOR AND TITLE INDEX

**Abdel-Zaher, Nabawia** Crystalline Character of Native and Chemically Treated Saudi Arabian Cotton Fibers (*Khalifa, Shoukr*) ..... 602

**Adanur, Sabit** Analysis of Air Flow in Air-Jet Filling Insertion (*Mohamed*) ..... 253

Analysis of Yarn Tension in Air-Jet Filling Insertion (*Mohamed*) ..... 259

**Adriaansen, A. L.** Simple Instruments for Quality Control by Finishers and Tailors (*Ly, Tester, Buckenham, Roczniok, Scaysbrook, de Jong*) ..... 402

**Allen, N. S.** Environmental Degradation of Poly(ethylene Terephthalate) (*Mohammadian, Edge, Jones*) ..... 690

**Allenach, D. A.** Reactions of β-Sulphato-ethylsulphone Crosslinking Agent with Wool Part I: HPLC Analysis and Stripping Tests (*Smith, Spedding, Otterburn, Lewis*) 705

**Amirbayat, J.** Profile of Lockstitch Seams: A Theoretical Study 119

**Anandjiwala, Rajesh D.** Large-Scale Extension and Recovery of Plain Woven Fabrics Part I: Theoretical (*Leaf*) 619

Part II: Experimental and Discussion (*Leaf*) ..... 743

**Anthony, W. S.** Determining Future Cotton Variety Fiber Quality Objectives (*Meredith, Culp, Robert, Ruppenicker, Williford*) ..... 715

**Arulselvan, B.** Production and Evaluation of Cotton/Viscose Yarns with Long Staple Viscose Fibers on the Surface and in the Body (*Radhakrishnaiah*) ..... 755

**Avichai, H.** Surface Whitened, Shrink Resistant Wool Cloth of Improved Lightfastness Part II: An Aqueous Treatment (*Levene, Kohanowski*) ..... 581

**Backer, S.** Mechanical Properties of Fabrics Woven from Yarns Produced by Different Spinning Technologies: Yarn Failure as a Function of Gauge Length (*Realff, Seo, Boyce, Schwartz*) ..... 517

**Baird, Margot** Effect of Photodegradation on the Mechanical Properties of Wool and Wool/Polyester Fabrics (*Carr, Holt*) ..... 210

**Banks-Lee, P.** Analysis of Fabric Deformation in a Roll-Making Operation Part I: A Static Case (*Ghosh, Peng, Hamouda, Shin*) ..... 153

Part II: A Dynamic Case (*Ghosh, Peng, Hamouda, Shin*) 185

Optimizing Textile Spindle Design Using Finite Element Analysis (*Emerson, Keltie, Tucker*) ..... 659

**Baqui, M. A.** Effects of Machine Variables on the Structure and Properties of Air-Jet Fasciated Yarns (*Lawrence*) 123

**Barella, A.** Comments on "A Statistical Approach for Determining the Technological Value of Cotton Using HVI Fiber Properties" (*Castro, Gelabert, Manich*) ..... 555

**Batra, Subhash K.** Determining Short Fiber Content in Cotton Part I: Some Theoretical Fundamentals (*Zeidman, Sasser*) ..... 21

Part II: Measures of SFC from HVI Data—Statistical Models (*Zeidman, Sasser*) ..... 106

**Baxley, R. V., Jr.** Effects of Suessen Heat Setting Variables on Streaks in Finished Nylon Carpet (*Miller*) ..... 697

**Bel, Patricia D.** Effects of Mechanical Cleaning on Cotton Fibers Part I: Ginning (*Columbus, Bragg, Robert*) 83

Part II: Combinations of Gin and Mill Cleaning—Fiber Quality (*Simpson, Columbus, Vinyard*) ..... 503

**Belkacemi, Khaled** Vacuum Extraction of Caustic Soda Solution from Fabrics Containing Cotton: Impact on Mercerization (*Broadbent, Fecteau, Maisonneuve*) .. 471

**Berberi, Pellumb G.** Effect of Lubrication on Spinning Properties of Dyed Cotton Fibers ..... 285

**Berni, Ralph J.** Washing Cotton by Batch Processes (*Perkins*) 39

**Bharati, R. N.** Quantitative Estimation of Polyvinyl Alcohol and Starch in a Sized Warp Beam Using Infrared Spectroscopy (*Venkataraman, Moraye*) ..... 449

**Biedermann, W.** Thermodynamics of the Solubility of Nonionic Dyes in Water and in Poly(ethylene Terephthalate) (*Datyner*) ..... 637

**Bosch, P.** Using Liposomes in Wool Chlorination: Stability of Chlorine Liposomes and Their Application on Wool Fibers (*de la Maza, Parra*) ..... 357

**Boyce, M. C.** Mechanical Properties of Fabrics Woven from Yarns Produced by Different Spinning Technologies: Yarn Failure as a Function of Gauge Length (*Realff, Seo, Schwartz, Backer*) ..... 517

**Bragg, C. K.** Effects of Mechanical Cleaning on Cotton Fibers Part I: Ginning (*Bel, Columbus, Robert*) ..... 83

**Broadbent, Arthur D.** Measuring the Water Content of a Textile Fabric Using a Radio Frequency Sensor (*Côté, Forget, Thérien*) ..... 724

Statistical Analysis of a Continuous Infrared Dryer (*Thérien, Côté*) ..... 193

Vacuum Extraction of Caustic Soda Solution from Fabrics Containing Cotton: Impact on Mercerization (*Fecteau, Maisonneuve, Belkacemi*) ..... 471

**Brown, R. S.** Development of a Computerized Method to

Measure Cotton Tenacity at Different Extension Rates (*Godbey, Taylor*) ... 452
**Buckenham, P.** Simple Instruments for Quality Control by Finishers and Tailors (*Ly, Tester, Roczniok, Adriaansen, Scaysbrook, de Jong*) ... 402
**Bullerwell, Arthur** Dynamic Analysis of the Beat-Up Process (*Dao, Mohamed*) ... 760
Measuring Beat-Up Force on a Water Jet Loom (*Mohamed*) ... 214
**Burbidge, A.** Factors Influencing the Detection of Dark Fiber Contamination in Plain Weave Fabric (*Foulds, McInnes*) ... 342

**Cain, J.** Automating the Arealometer: Examination of the Kozeny Equation (*Duckett, Krowicki, Thibodeaux*) 309
**Carr, Christopher M.** Effect of Photodegradation on the Mechanical Properties of Wool and Wool/Polyester Fabrics (*Baird, Holt*) ... 210
**Castro, L.** Comments on "A Statistical Approach for Determining the Technological Value of Cotton Using HVI Fiber Properties" (*Barella, Gelabert, Manich*) ... 555
**Chakrabarti, S. K.** Enhanced Bleaching and Softening of Jute by Pretreatment with Polysaccharide Degrading Enzymes (*Kundu, Ghosh, Ghosh*) ... 720
**Chavan, R. B.** Concurrent Sublimation Transfer Printing and Finishing of Silk (*Nalankilli*) ... 461
**Chen, Julie** Experiment on a Two-Filament Twisted Structure (*Wu*) ... 635
**Choi, Suk-Chul** Thermal Crystallization of Poly(ethylene Terephthalate) and Its Copolyesters: Effect of Degree of Polymerization and Copolymerized Components (*Takeda, Ehara, Sakai*) ... 429
**Chu, Youe T.** Interpretations of Single Fiber, Bundle, and Yarn Tenacity Data (*Sasser, Shofner, Shofner, Townes*) 681
**Chudleigh, P. W.** Detecting Colored Contaminants in Wool Using an Integrating Sphere ... 568
**Columbus, Eugene P.** Effects of Mechanical Cleaning on Cotton Fibers Part I: Ginning (*Bel, Bragg, Robert*) ... 83
Part II: Combinations of Gin and Mill Cleaning—Fiber Quality (*Bel, Simpson, Vinyard*) ... 503
**Cookson, P. G.** Measuring Hygral Expansion in Woven Wool Fabrics (*De Boos, Roczniok, Ly*) ... 319
Measurement of Relaxation Shrinkage in Woven Wool Fabrics (*Roczniok, Ly*) ... 537
**Comelles, F.** Surfactants in Wool Chlorination (*de la Maza, Sánchez Leal, Parra*) ... 74
**Côté, Benôit** Statistical Analysis of a Continuous Infrared Dryer (*Thérien, Broadbent*) ... 193
Measuring the Water Content of a Textile Fabric Using a Radio Frequency Sensor (*Forget, Thérien, Broadbent*) 724
**Crews, Patricia Cox** Evaluation of Milkweed Floss as an Insulative Fill Material (*Sievert, Woeppel, McCullough*) 203
**Culp, T. W.** Determining Future Cotton Variety Fiber Quality Objectives (*Meredith, Robert, Ruppenicker, Anthony, Williford*) ... 715

**Dao, Dekun** Dynamic Analysis of the Beat-Up Process (*Bullerwell, Mohamed*) ... 760
**Das, H. K.** Influence of Glycine on the Graft Copolymerization Kinetics of Methyl Methacrylate on Jute Fibers Initiated by Ceric Ion (*Nayak, Singh*) ... 466
**Datyner, A.** Thermodynamics of the Solubility of Nonionic Dyes in Water and in Poly(ethylene Terephthalate) (*Biedermann*) ... 637
**Dawson, R. M.** The Shed-Shape Characteristic ... 328
**De Boos, Allan G.** Effects of Structure and Finishing on the Mechanical and Dimensional Properties of Wool Fabrics (*Wemyss*) ... 247
Measuring Hygral Expansion in Woven Wool Fabrics (*Cookson, Roczniok, Ly*) ... 319
**de Jong, S.** Simple Instruments for Quality Control by Finishers and Tailors (*Ly, Tester, Buckenham, Roczniok, Adriaansen, Scaysbrook*) ... 402
**de la Maza, A.** Surfactants in Wool Chlorination (*Sánchez Leal, Parra, Comelles*) ... 74
Using Liposomes in Wool Chlorination: Stability of Chlorine Liposomes and Their Application on Wool Fibers (*Parra, Bosch*) ... 357
**De Luca, L. B.** Comments on Two Papers in the Literature: Analysis of Synthetic Fiber Yarn Skein Tenacities on a Per-Broken-Fiber Basis (*Thibodeaux*) ... 306
**Du, Guang-Wu** Mechanics of Friction Twisting Part I: Yarn Path, Tension, and Torque Generation in a Single Disc (*Hearle*) ... 289
Part II: Application of the Single Disc Model to a Triple-Stack Multi-Disc Spindle (*Hearle*) ... 347
**Duckett, K. E.** Automating the Arealometer: Examination of the Kozeny Equation (*Cain, Krowicki, Thibodeaux*) 309

**Edge, M.** Environmental Degradation of Poly(ethylene Terephthalate) (*Mohammadian, Allen, Jones*) ... 690
**Ehara, Miki** Thermal Crystallization of Poly(ethylene Terephthalate) and Its Copolyesters: Effect of Degree of Polymerization and Copolymerized Components (*Takeda, Sakai, Choi*) ... 429
**El Mogahzy, Yehia E.** Friction in Fibrous Materials Part I: Structural Model (*Gupta*) ... 547
**Emerson, P. D.** Optimizing Textile Spindle Design Using Finite Element Analysis (*Banks-Lee, Keltie, Tucker*) .. 659
**Etters, J. N.** Migration of Particulate Dye Mixtures in Textile Capillary Assemblies ... 397
Equilibrium Sorption Isotherms of Indigo on Cotton Denim Yarn: Effect of pH (*Hou*) ... 773

**Fecteau, Teresa** Vacuum Extraction of Caustic Soda Solution from Fabrics Containing Cotton: Impact on Mercerization (*Broadbent, Maisonneuve, Belkacemi*) ... 471
**Forget, Christine** Measuring the Water Content of a Textile Fabric Using a Radio Frequency Sensor (*Côté, Thérien, Broadbent*) ... 724
**Foulds, R. A.** Factors Influencing the Detection of Dark Fiber Contamination in Plain Weave Fabric (*Burbidge, McInnes*) ... 342
**Fujii, Tomiko** Acrylic Acid Grafted Polyester Surface: Surface Free Energies, FT-IR(ATR), and ESCA Characterization (*Kawase, Uchita, Minagawa*) ... 146
**Fukuda, Mitsuhiro** Moisture Sorption Mechanism of Aromatic Polyamide Fibers: Stoichiometry of the Water Sorbed in Poly(*para*-phenylene Terephthalamide) Fibers (*Ochi, Miyagawa, Kawai*) ... 668

**Gelabert, J. M.** Comments on "A Statistical Approach for Determining the Technoiogical Value of Cotton Using HVI Fiber Properties" (*Barella, Castro, Manich*) ... 555
**Gerde, J.** Assessing Changes in Texture Periodicity Due to Appearance Loss in Carpets: Gray Level Co-occurrence Analysis (*Sobus, Pourdeyhimi, Ulcay*) ... 557
**Ghosh, B. L.** Enhanced Bleaching and Softening of Jute by Pretreatment with Polysaccharide Degrading Enzymes (*Kundu, Ghosh, Chakrabarti*) ... 720
**Ghosh, B. S.** Enhanced Bleaching and Softening of Jute by Pretreatment with Polysaccharide Degrading Enzymes (*Kundu, Chakrabarti, Ghosh*) ... 720
**Ghosh, T. K.** Analysis of Fabric Deformation in a Roll-Making Operation Part I: A Static Case (*Peng, Banks-Lee, Hamouda, Shin*) ... 153
Part II: A Dynamic Case (*Peng, Banks-Lee, Hamouda, Shin*) ... 185

**Godbey, L. C.** Development of a Computerized Method to Measure Cotton Tenacity at Different Extension Rates (*Taylor, Brown*) ..... 452
**Gupta, Bhupender S.** Friction in Fibrous Materials Part I: Structural Model (*El Mogahzy*) ..... 547
**Gupta, V. B.** Birefringence of Wool (*Rama Rao*) ..... 510
Property Structure Correlations in Wool Fibers (*Rama Rao*) ..... 609

**Hamouda, H.** Analysis of Fabric Deformation in a Roll-Making Operation Part I: A Static Case (*Ghosh, Peng, Banks-Lee, Shin*) ..... 153
Part II: A Dynamic Case (*Ghosh, Peng, Banks-Lee, Shin*) 185
**Harakawa, K.** Bispectra of Sliver Irregularities (*Matsumoto, Toriumi, Tsuchiya*) ..... 334
Silk/Cotton/Scoured Silk Core Twin Spun Yarns (*Matsumoto, Tsuchiya, Toriumi*) ..... 131
**Harper, Robert J., Jr.** Comparison of Fabrics Made with Cotton Covered Polyester Staple-Core Yarn and 100% Cotton Yarn (*Sawhney, Ruppenicker, Robert*) ..... 71
Finishing and Properties of Fabrics Produced with Polyester Staple-Core/Cotton-Wrap Yarns (*Sawhney, Robert, Ruppenicker*) ..... 393
Lateral Migration Control During Drying Using Methyl Cellulose (*Lambert*) ..... 236
**Hearle, John W. S.** Mechanics of Friction Twisting Part I: Yarn Path, Tension, and Torque Generation in a Single Disc (*Du*) ..... 289
Part II: Application of the Single Disc Model to a Triple-Stack Multi-Disc Spindle (*Du*) ..... 347
**Hemstreet, J. M.** Analysis of Known Fiber Arrays by the Peyer Texlab System (*Krowicki*) ..... 223
**Hirt, Douglas E.** Effect of Dynamic Surface Tension on Foam Flow Through Fibrous Materials (*Prud'homme, Rebenfeld*) ..... 47
**Holcombe, B. V.** Properties Influencing Coolness to the Touch of Fabrics (*Schneider*) ..... 488
**Holt, Leo A.** Effect of Photodegradation on the Mechanical Properties of Wool and Wool/Polyester Fabrics (*Baird, Carr*) ..... 210
**Hou, M.** Equilibrium Sorption Isotherms of Indigo on Cotton Denim Yarn: Effect of pH (*Etters*) ..... 773

**Ikada, Yoshito** Antistatic Properties of Surface-Modified Polyester Fabrics (*Uchida, Uyama*) ..... 483
**Ito, Hiraku** Shrink-Resist Treatments for Wool Using Multifunctional Epoxides (*Umehara, Shibata, Sakamoto, Miyamoto*) ..... 89
**Itoh, Motoyoshi** A New Approach to the Theory of the Compression of Fiber Assemblies (*Komori*) ..... 420
Theory of the General Deformation of Fiber Assemblies (*Komori*) ..... 588

**Jones, K.** Environmental Degradation of Poly(ethylene Terephthalate) (*Mohammadian, Allen, Edge*) ..... 690

**Karasawa, M.** Diffusion of a Disperse Dye in a Multiple Porous Membrane Assembly (*Sasaki, Kidoh*) ..... 266
**Katayama, A.** Decoloration of Natural Coloring Matter with Sodium Percarbonate (*Ohura, Takagishi*) ..... 242
**Kawai, Hiromichi** Moisture Sorption Mechanism of Aromatic Polyamide Fibers: Stoichiometry of the Water Sorbed in Poly(*para*-phenylene Terephthalamide) Fibers (*Fukuda, Ochi, Miyagawa*) ..... 668
**Kawase, Tokuzo** Acrylic Acid Grafted Polyester Surface: Surface Free Energies, FT-IR(ATR), and ESCA Characterization (*Uchita, Fujii, Minagawa*) ..... 146
**Keltie, R. F.** Optimizing Textile Spindle Design Using Finite Element Analysis (*Banks-Lee, Emerson, Tucker*) ... 659
**Kepka, Stanislaw** Abrasion and Lint Loss Properties of Fabrics Containing Crosslinked Polyethylene Glycol (*Vigo, Lamb, Miller*) ..... 169
**Khalifa, Berlant A.** Crystalline Character of Native and Chemically Treated Saudi Arabian Cotton Fibers (*Abdel-Zaher, Shoukr*) ..... 602
**Kidoh, H.** Diffusion of a Disperse Dye in a Multiple Porous Membrane Assembly (*Sasaki, Karasawa*) ..... 266
**Kim, Young Joo** Binding of Acid and Basic Dyes by Wool Keratin Derivatives (*Kono, Takagishi*) ..... 476
**Kohanowski, N.** Surface Whitened, Shrink Resistant Wool Cloth of Improved Lightfastness Part II: An Aqueous Treatment (*Levene, Avichai*) ..... 581
**Komori, Takashi** A New Approach to the Theory of the Compression of Fiber Assemblies (*Itoh*) ..... 420
Theory of the General Deformation of Fiber Assemblies (*Itoh*) ..... 588
**Komrska, Jiří** Laser Diffraction Measurements of the Parameters of Fine-Mesh Woven Textiles (*Sodomka*) ..... 232
**Kono, Kenji** Binding of Acid and Basic Dyes by Wool Keratin Derivatives (*Kim, Takagishi*) ..... 476
**Kothari, V. K.** Effect of Process Variables in Air-Jet Texturing on the Properties of Spun Yarns with Different Structures (*Sengupta, Srinivasan*) ..... 729
Role of Water in Air-Jet Texturing Part I: Polyester Filament Feeder Yarns with Different Frictional Characteristics (*Sengupta, Rengasamy*) ..... 495
Part II: Nylon 6 Yarns Conditioned in Different Environments (*Sengupta, Rengasamy*) ..... 575
**Krowicki, R. S.** Analysis of Known Fiber Arrays by the Peyer Texlab System (*Hemstreet*) ..... 223
Automating the Arealometer: Examination of the Kozeny Equation (*Duckett, Cain, Thibodeaux*) ..... 309
**Kundu, A. B.** Enhanced Bleaching and Softening of Jute by Pretreatment with Polysaccharide Degrading Enzymes (*Ghosh, Chakrabarti, Ghosh*) ..... 720

**Lamb, George E. R.** Abrasion and Lint Loss Properties of Fabrics Containing Crosslinked Polyethylene Glycol (*Vigo, Kepka, Miller*) ..... 169
**Lambert, Allan H.** Lateral Migration Control During Drying Using Methyl Cellulose (*Harper*) ..... 236
**Lawrence, Carl A.** Effects of Machine Variables on the Structure and Properties of Air-Jet Fasciated Yarns (*Baqui*) 123
**Leaf, G. A. V.** Large-Scale Extension and Recovery of Plain Woven Fabrics Part I: Theoretical (*Anandjiwala*) .. 619
Part II: Experimental and Discussion (*Anandjiwala*) ... 743
**Lee, Shirley** Structural Properties of Nylon 66 Carpet Yarns Observed with Near Infrared Analysis (*Rodgers*) .... 531
**Levene, R.** Surface Whitened, Shrink Resistant Wool Cloth of Improved Lightfastness Part II: An Aqueous Treatment (*Kohanowski, Avichai*) ..... 581
**Lewis, D. M.** Reactions of β-Sulphato-ethylsulphone Cross-linking Agent with Wool Part I: HPLC Analysis and Stripping Tests (*Smith, Spedding, Otterburn, Allenach*) 705
**Liu, Jiang** An Empirical Model for Fabric Hand Part I: Objective Assessment of Light Weight Fabrics (*Raheel*) 31
Part II: Subjective Assessment (*Raheel*) ..... 79
**Lord, P. R.** Variations in Yarn Properties Caused by a Series of Design Changes in a Friction Spinning Machine (*Rust*) ..... 645
**Ly, N. G.** Measurement of Relaxation Shrinkage in Woven Wool Fabrics (*Cookson, Roczniok*) ..... 537
Measuring Hygral Expansion in Woven Wool Fabrics (*Cookson, De Boos, Roczniok*) ..... 319
Simple Instruments for Quality Control by Finishers and Tailors (*Tester, Buckenham, Roczniok, Adriaansen, Scaysbrook, de Jong*) ..... 402

**Maisonneuve, Rhéo** Vacuum Extraction of Caustic Soda Solution from Fabrics Containing Cotton: Impact on Mercerization (*Broadbent, Fecteau, Belkacemi*) .... 471
**Manich, A. M.** Comments on "A Statistical Approach for Determining the Technological Value of Cotton Using HVI Fiber Properties" (*Barella, Castro, Gelabert*) ... 555
**Matsumoto, Y.** Bispectra of Sliver Irregularities (*Toriumi, Tsuchiya, Harakawa*) ..... 334
Silk/Cotton/Scoured Silk Core Twin Spun Yarns (*Tsuchiya, Toriumi, Harakawa*) ..... 131
**McCullough, Elizabeth A.** Evaluation of Milkweed Floss as an Insulative Fill Material (*Crews, Sievert, Woeppel*) 203
**McInnes, C.** Factors Influencing the Detection of Dark Fiber Contamination in Plain Weave Fabric (*Foulds, Burbidge*) ..... 342
**Meredith, William R., Jr.** Determining Future Cotton Variety Fiber Quality Objectives (*Culp, Robert, Ruppenicker, Anthony, Williford*) ..... 715
**Miller, Bernard** Abrasion and Lint Loss Properties of Fabrics Containing Crosslinked Polyethylene Glycol (*Vigo, Lamb, Kepka*) ..... 169
**Miller, R. W.** Effects of Suessen Heat Setting Variables on Streaks in Finished Nylon Carpet (*Baxley*) ..... 697
Nylon 66 Carpet Streaks Versus Fiber Crimp and Dyeability (*Southern*) ..... 61
**Minagawa, Motoi** Acrylic Acid Grafted Polyester Surface: Surface Free Energies, FT-IR(ATR), and ESCA Characterization (*Kawase, Uchita, Fujii*) ..... 146
**Miyagawa, Mariko** Moisture Sorption Mechanism of Aromatic Polyamide Fibers: Stoichiometry of the Water Sorbed in Poly(*para*-phenylene Terephthalamide) Fibers (*Fukuda, Ochi, Kawai*) ..... 668
**Miyamoto, Takeaki** Shrink-Resist Treatments for Wool Using Multifunctional Epoxides (*Umehara, Shibata, Ito, Sakamoto*) ..... 89
**Mohamed, Mansour H.** Analysis of Air Flow in Air-Jet Filling Insertion (*Adanur*) ..... 253
Analysis of Yarn Tension in Air-Jet Filling Insertion (*Adanur*) ..... 259
Dynamic Analysis of the Beat-Up Process (*Dao, Bullerwell*) ..... 760
Measuring Beat-up Force on a Water Jet Loom (*Bullerwell*) ..... 214
**Mohammadian, M.** Environmental Degradation of Poly(ethylene Terephthalate) (*Allen, Edge, Jones*) ..... 690
**Moraye, S. S.** Quantitative Estimation of Polyvinyl Alcohol and Starch in a Sized Warp Beam Using Infrared Spectroscopy (*Venkataraman, Bharati*) ..... 449
**Muthukrishnan, P.** Sonic Modulus of Cotton Yarn and Its Relationship to Abrasion Resistance, Friction, and Fatigue Parameters (*Subramaniam, Naik*) ..... 58

**Naik, S. V.** Sonic Modulus of Cotton Yarn and Its Relationship to Abrasion Resistance, Friction, and Fatigue Parameters (*Subramaniam, Muthukrishnan*) ..... 58
**Nalankilli, G.** Concurrent Sublimation Transfer Printing and Finishing of Silk (*Chavan*) ..... 461
**Narasimham, T.** Airflow Through Fiber Plugs Part III: Linear Density and Maturity of Cotton (*Radhakrishnan, Neelakantan*) ..... 382
**Nayak, N. C.** Influence of Glycine on the Graft Copolymerization Kinetics of Methyl Methacrylate on Jute Fibers Initiated by Ceric Ion (*Das, Singh*) ..... 466
**Neelakantan, P.** Airflow Through Fiber Plugs Part III: Linear Density and Maturity of Cotton (*Radhakrishnan, Narasimham*) ..... 382
**Ni, Qing-Qing** Geometry and Mechanics of the Buckling Wrinkle in Fabrics Part I: Characteristics of the Buckling Wrinkle (*Shinohara, Takatera*) ..... 94
Part II: Buckling Model of a Woven Fabric Cylinder in Axial Compression (*Shinohara, Takatera*) ..... 100
**Niwa, Masako** Analysis of Mechanical Fatigue Phenomena in Wool and Wool Blend Suiting Fabrics (*Yokura*) .. 1

**Obendorf, S. Kay** Alkaline Hydrolysis of Titanium Dioxide Delustered Poly(ethylene Terephthalate) Yarns (*Solbrig*) 177
**Ochi, Miyuki** Moisture Sorption Mechanism of Aromatic Polyamide Fibers: Stoichiometry of the Water Sorbed in Poly(*para*-phenylene Terephthalamide) Fibers (*Fukuda, Miyagawa, Kawai*) ..... 668
**Ogale, A. A.** Tensile Viscoelastic Properties of Spunbonded Nonwoven Polypropylene Backing (*Schaff*) ..... 386
**Ohura, R.** Decoloration of Natural Coloring Matter with Sodium Percarbonate (*Katayama, Takagishi*) ..... 242
**Otterburn, M. S.** Reactions of β-Sulphato-ethylsulphone Crosslinking Agent with Wool Part I: HPLC Analysis and Stripping Tests (*Smith, Spedding, Lewis, Allenach*) 705

**Parra, J. L.** Surfactants in Wool Chlorination (*de la Maza, Sánchez Leal, Comelles*) ..... 74
Using Liposomes in Wool Chlorination: Stability of Chlorine Liposomes and Their Application on Wool Fibers (*de la Maza, Bosch*) ..... 357
**Peng, H.** Analysis of Fabric Deformation in a Roll-Making Operation Part I: A Static Case (*Ghosh, Banks-Lee, Hamouda, Shin*) ..... 153
Part II: A Dynamic Case (*Ghosh, Banks-Lee, Hamouda, Shin*) ..... 185
**Peer Mohamed, A.** Effects of Apron Spacing and Break Draft on Double-Rove Yarn Quality in Short Staple Spinning (*Subramaniam*) ..... 280
**Pepio, M.** Global Modeling of a Textile Process (*Polo*) ... 114
**Perkins, Henry H., Jr.** Washing Cotton by Batch Processes (*Berni*) ..... 39
**Polo, C.** Global Modeling of a Textile Process (*Pepio*) .... 114
**Pourdeyhimi, B.** Assessing Changes in Texture Periodicity Due to Appearance Loss in Carpets: Gray Level Cooccurrence Analysis (*Sobus, Gerde, Ulcay*) ..... 557
Texture Evaluation of Carpets Using Image Analysis (*Wu, Spivak*) ..... 407
**Prasad, Rameshwar** Deltamethrin Spray as an Insect Repellent for Woolen Fabrics (*Veer, Rao*) ..... 655
**Prud'homme, Robert K.** Effect of Dynamic Surface Tension on Foam Flow Through Fibrous Materials (*Hirt, Rebenfeld*) ..... 47

**Radhakrishnaiah, P.** Production and Evaluation of Cotton/Viscose Yarns with Long Staple Viscose Fibers on the Surface and in the Body (*Arulselvan*) ..... 755
**Radhakrishnan, T.** Airflow Through Fiber Plugs Part III: Linear Density and Maturity of Cotton (*Neelakantan, Narasimham*) ..... 382
**Raheel, Mastura** An Empirical Model for Fabric Hand Part I: Objective Assessment of Light Weight Fabrics (*Liu*) 31
Part II: Subjective Assessment (*Liu*) ..... 79
**Rama Rao** Birefringence of Wool (*Gupta*) ..... 510
Property Structure Correlations in Wool Fibers (*Gupta*) 609
**Rao, K. M.** Deltamethrin Spray as an Insect Repellent for Woolen Fabrics (*Veer, Prasad*) ..... 655
**Realff, M. L.** Mechanical Properties of Fabrics Woven from Yarns Produced by Different Spinning Technologies: Yarn Failure as a Function of Gauge Length (*Seo, Boyce, Schwartz, Backer*) ..... 517
**Rebenfeld, Ludwig** Effect of Dynamic Surface Tension on Foam Flow Through Fibrous Materials (*Hirt, Prud'homme*) ..... 47

**Rengasamy, R. S.** Role of Water in Air-Jet Texturing Part I: Polyester Filament Feeder Yarns with Different Frictional Characteristics (*Kothari, Sengupta*) ..... 495
Part II: Nylon 6 Yarns Conditioned in Different Environments (*Kothari, Sengupta*) ..... 575
**Robert, K. Q.** Comparison of Fabrics Made with Cotton Covered Polyester Staple-Core Yarn and 100% Cotton Yarn (*Sawhney, Harper, Ruppenicker*) ..... 71
Determining Future Cotton Variety Fiber Quality Objectives (*Meredith, Culp, Ruppenicker, Anthony, Williford*) 715
Effects of Mechanical Cleaning on Cotton Fibers Part I: Ginning (*Bel, Columbus, Bragg*) ..... 83
Finishing and Properties of Fabrics Produced with Polyester Staple-Core/Cotton-Wrap Yarns (*Sawhney, Harper, Ruppenicker*) ..... 393
**Roczniok, A. F.** Measurement of Relaxation Shrinkage in Woven Wool Fabrics (*Cookson, Ly*) ..... 537
Measuring Hygral Expansion in Woven Wool Fabrics (*Cookson, De Boos, Ly*) ..... 319
Simple Instruments for Quality Control by Finishers and Tailors (*Ly, Tester, Buckenham, Adriaansen, Scaysbrook, de Jong*) ..... 402
**Rodgers, James E.** Structural Properties of Nylon 66 Carpet Yarns Observed with Near Infrared Analysis (*Lee*) .. 531
**Rucker, James W.** 2,2'-Bipyridine Catalyzed Bleaching of Cotton Fibers with Peracetic Acid Part III: Effect of Chain Length of Alkyl Sulfate Surfactants (*Satterwhite*) 273
**Ruppenicker, G. F.** Comparison of Fabrics Made with Cotton Covered Polyester Staple-Core Yarn and 100% Cotton Yarn (*Sawhney, Harper, Robert*) ..... 71
Determining Future Cotton Variety Fiber Quality Objectives (*Meredith, Culp, Robert, Anthony, Williford*) .. 715
Finishing and Properties of Fabrics Produced with Polyester Staple-Core/Cotton-Wrap Yarns (*Sawhney, Harper, Robert*) ..... 393
**Rust, J. P.** Variations in Yarn Properties Caused by a Series of Design Changes in a Friction Spinning Machine (*Lord*) ..... 645
**Ryu, Jangmi** Effect of Corona Discharge on the Surface of Wool and Its Application to Printing (*Wakida, Takagishi*) ..... 595

**Sakai, Yoko** Thermal Crystallization of Poly(ethylene Terephthalate) and Its Copolyesters: Effect of Degree of Polymerization and Copolymerized Components (*Takeda, Ehara, Choi*) ..... 429
**Sakamoto, Munenori** Shrink-Resist Treatments for Wool Using Multifunctional Epoxides (*Umehara, Shibata, Ito, Miyamoto*) ..... 89
**Sánchez Leal, J.** Surfactants in Wool Chlorination (*de la Maza, Parra, Comelles*) ..... 74
**Sasaki, H.** Diffusion of a Disperse Dye in a Multiple Porous Membrane Assembly (*Kidoh, Karasawa*) ..... 266
**Sasser, Preston E.** Determining Short Fiber Content in Cotton Part I: Some Theoretical Fundamentals (*Zeidman, Batra*) ..... 21
Part II: Measures of SFC from HVI Data—Statistical Models (*Zeidman, Batra*) ..... 106
Interpretations of Single Fiber, Bundle, and Yarn Tenacity Data (*Shofner, Chu, Shofner, Townes*) ..... 681
**Satterwhite, Sherri A.** 2,2'-Bipyridine Catalyzed Bleaching of Cotton Fibers with Peracetic Acid Part III: Effect of Chain Length of Alkyl Sulfate Surfactants (*Rucker*) 273
**Sawhney, A. P. S.** Comparison of Fabrics Made with Cotton Covered Polyester Staple-Core Yarn and 100% Cotton Yarn (*Harper, Ruppenicker, Robert*) ..... 71
Finishing and Properties of Fabrics Produced with Polyester Staple-Core/Cotton-Wrap Yarns (*Harper, Robert, Ruppenicker*) ..... 393
**Scaysbrook, F.** Simple Instruments for Quality Control by Finishers and Tailors (*Ly, Tester, Buckenham, Roczniok, Adriaansen, de Jong*) ..... 402
**Schaff, A. J.** Tensile Viscoelastic Properties of Spunbonded Nonwoven Polypropylene Backing (*Ogale*) ..... 386
**Schneider, A. M.** Properties Influencing Coolness to the Touch of Fabrics (*Holcombe*) ..... 488
**Schwartz, P.** Mechanical Properties of Fabrics Woven from Yarns Produced by Different Spinning Technologies: Yarn Failure as a Function of Gauge Length (*Realff, Seo, Boyce, Backer*) ..... 517

# SUBJECT INDEX

**Abrasion**
- **of cotton/polyester fabrics:** lint loss properties of fabrics with polyethylene glycols *Vigo, Lamb, Kepka, Miller* 169
- **of cotton yarn:** sonic modulus: relation to abrasion resistance, friction, and fatigue parameters *Subramaniam, Muthukrishnan, Naik* ..... 58

**Acrylics**
- **air-jet fasciated yarns:** effects of machine variables on structure and properties *Lawrence, Baqui* ..... 123
- **pesticide-contaminated fabrics:** SEM analysis: new technique for labeling pesticide *Shaw* ..... 375
- **tufted carpets from:** noise absorption capacity of: effect of pile parameters *Shoshani, Wilding* ..... 736

**Adhesion**
- **friction in fibrous materials:** structural model to characterize viscoelastic deformation *Gupta, El Mogahzy* ..... 547

**Antistatics**
- **of surface-modified PET:** UV-induced graft polymerization *Uchida, Uyama, Ikada* ..... 483

**Aramids**
- **mechanical properties:** stress relaxation and tensile modulus of polymeric fibers *van Miltenburg* ..... 363

**Bending**
- **nonlinear yarn bending behavior:** large-scale extension and recovery of plain woven fabrics *Anandjiwala, Leaf* 619
- **yarn bending of plain wovens:** large-scale extension and recovery: experimental and discussion *Anandjiwala, Leaf* ..... 743

**Birefringence**
- **of wool fibers:** dependence on moisture regain *Gupta, Rama Rao* ..... 510

**Bleaching**
- **and softening of jute:** pretreatment with polysaccharide degrading enzymes *Kundu, Ghosh, Chakrabarti, Ghosh* 720
- **dark fiber contamination in wool:** factors influencing detection in plain weaves *Foulds, Burbidge, McInnes* 342
- **fully bleached wool fabric:** shrink resistance and improved lightfastness: aqueous treatment *Levene, Kohanowski, Avichai* ..... 581
- **of cotton with peracetic acid:** effect of chain length of alkyl sulfate surfactants *Rucker, Satterwhite* ..... 273
- **with sodium percarbonate:** decoloration of natural coloring matter *Ohura, Katayama, Takagishi* ..... 242

**Byssinosis**
- **dust from washed cottons:** washing by batch and continuous processes *Perkins, Berni* ..... 39

**Capillarity**
- **particulate dye migration:** wicking in textile capillary assemblies *Etters* ..... 397

**Carpets**
- **appearance evaluation:** image enhancement techniques *Wu, Pourdeyhimi, Spivak* ..... 407
- **appearance loss in:** assessing changes in texture periodicity: gray level co-occurrence analysis *Sobus, Pourdeyhimi, Gerde, Ulcay* ..... 557
- **noise absorption capacity of:** effect of pile parameters of tufted carpets *Shoshani, Wilding* ..... 736
- **nylon 66 carpet yarns:** NIR analysis of structural properties *Rodgers, Lee* ..... 531
- **polypropylene backing for:** tensile viscoelastic properties of spunbonded nonwoven *Schaff, Ogale* ..... 386
- **streaks in nylon 66 carpet:** as correlated with fiber crimp and dyeability *Miller, Southern* ..... 61
- **streaks in nylon carpets:** effects of Suessen heat setting variables on *Baxley, Miller* ..... 697

**Cellulose**
- **desizing of:** global modeling of a textile process *Polo, Pepio* 114
- **ester crosslinkages in cotton:** characterizing with FT-IR photoacoustic spectroscopy *Yang* ..... 298
- **multiple porous membrane assembly:** diffusion of a disperse dye in *Sasaki, Kidoh, Karasawa* ..... 266

**Chromatography**
- **of crosslinked wool:** reactions of XLC: HPLC analysis and stripping tests *Smith, Spedding, Otterburn, Lewis, Allenach* ..... 705

**Comfort**
- **warmth or coolness of fabrics:** properties influencing thermal touch sensations *Schneider, Holcombe* ..... 488

**Composites**
- **cotton/polyester yarns:** comparison of cotton covered/polyester staple-core yarns with 100% cotton *Sawhney, Harper, Ruppenicker, Robert* ..... 71
- **fasciated cotton/viscose yarns:** long staple viscose fibers on the surface and in the body: production and evaluation *Radhakrishnaiah, Arulselvan* ..... 755
- **polyester/cotton yarns:** finishing and properties of fabrics from polyester staple-core/cotton-wrap yarns *Sawhney, Harper, Robert, Ruppenicker* ..... 393
- **twin spun yarns:** silk/cotton/scoured silk core *Matsumoto, Tsuchiya, Toriumi, Harakawa* ..... 131

**Compression**
- **in a fabric roll:** analysis of fabric deformation: a dynamic case *Ghosh, Peng, Banks-Lee, Hamouda, Shin* .... 185
- **in a fabric roll:** analysis of fabric deformation: a static case *Ghosh, Peng, Banks-Lee, Hamouda, Shin* ..... 153
- **of fiber assemblies:** new approach to theory of fiber mass *Komori, Itoh* ..... 420
- **of fiber assemblies:** theory of general deformation *Komori, Itoh* ..... 588
- **of insulative fill materials:** evaluation of milkweed floss as an insulator *Crews, Sievert, Woeppel, McCullough* 203

**Computer Techniques**
- **automating the Arealometer:** examining the Kozeny equation *Duckett, Cain, Krowicki, Thibodeaux* ..... 309
- **image analysis of carpets:** assessing changes in texture periodicity: gray level co-occurrence analysis *Sobus, Pourdeyhimi, Gerde, Ulcay* ..... 557
- **to measure cotton tenacity:** different extension rates *Godbey, Taylor, Brown* ..... 452
- **to model spindle design:** optimizing design using finite element analysis *Banks-Lee, Emerson, Keltie, Tucker* 659

**Copolyester**
- **thermal crystallization of:** effect of degree of polymerization and copolymerized components *Takeda, Ehara, Sakai, Choi* ..... 429

**Corona Treatment**
- **of wool fiber and fabric:** effect on surface and application to printing *Ryu, Wakida, Takagishi* ..... 595

**Cotton Dust**
- **from washed cottons:** washing by batch and continuous processes *Perkins, Berni* ..... 39

**Cotton Fabrics**
- **containing polyethylene glycols:** abrasion and lint loss properties of *Vigo, Lamb, Kepka, Miller* ..... 169
- **empirical model for fabric hand:** objective assessment of light weight dress fabrics *Raheel, Liu* ..... 31
- **empirical model for fabric hand:** subjective assessment of light weight dress fabrics *Raheel, Liu* ..... 79
- **ester crosslinkages in cotton:** characterizing with FT-IR photoacoustic spectroscopy *Yang* ..... 298

**esterification of:** FT-IR spectroscopy study of ester crosslinking mechanism *Yang* ... 433
**infrared drying of:** statistical analysis of continuous infrared dryer *Thérien, Côté, Broadbent* ... 193
**mercerization of:** vacuum slot extraction of NaOH solutions from cotton and blends *Broadbent, Fecteau, Maisonneuve, Belkacemi* ... 471
**migration control of dyes in:** methyl cellulose gel as control during drying *Lambert, Harper* ... 236

**Cotton Fibers**
**airflow through fiber plugs:** linear density and maturity: statistical analysis *Radhakrishnan, Neelakantan, Narasimham* ... 382
**catalyzed bleaching of:** peracetic acid: effect of chain length of alkyl sulfate surfactants *Rucker, Satterwhite* ... 273
**cleaning of:** effects of mechanical cleaning: ginning *Bel, Columbus, Bragg, Robert* ... 83
**dead cotton in:** coverage by direct dyes *Smith* ... 226
**determining short fiber content:** mathematical fundamentals of fiber length distribution *Zeidman, Batra, Sasser* 21
**effects of mechanical cleaning:** combinations of gin and mill cleaning: fiber quality *Bel, Simpson, Columbus, Vinyard* ... 503
**fiber and bundle tensile properties:** interpretations of single fiber, bundle, and yarn data *Sasser, Shofner, Chu, Shofner, Townes* ... 681
**fiber fineness and immaturity:** automating the Arealometer: Kozeny equation *Duckett, Cain, Krowicki, Thibodeaux* ... 309
**fiber length distribution:** analysis of known fiber arrays by Peyer Texlab system *Hemstreet, Krowicki* ... 223
**maturity and dyeability of:** review of maturity test methods for defects *Smith* ... 137
**Saudi Arabian fibers:** crystalline character of native and chemically treated fibers *Khalifa, Abdel Zaher, Shoukr* 602
**short fiber content in:** measures from HVI data, statistical models *Zeidman, Batra, Sasser* ... 106
**spinning properties of dyed fibers:** effect of lubrication *Berberi* ... 285
**technological value of:** statistical approach using HVI fiber properties: comments on *Barella, Castro, Gelabert, Manich* ... 555
**tenacity of:** computerized method to measure at different extension rates *Godbey, Taylor, Brown* ... 452

**Cotton Yarns**
**air-jet textured spun yarns:** effect of process variables on properties of yarns with different structures *Sengupta, Kothari, Srinivasan* ... 729
**cotton/viscose yarns:** long staple viscose fibers on the surface and in the body: production and evaluation *Radhakrishnaiah, Arulselvan* ... 755
**from three spinning systems:** mechanical properties of fabrics: yarn failure as a function of gauge length *Realff, Seo, Boyce, Schwartz, Backer* ... 517
**indigo on denim:** equilibrium sorption isotherms: effect of pH *Etters, Hou* ... 773
**poly/cotton composites:** finishing and properties of fabrics from polyester staple-core/cotton-wrap yarns *Sawhney, Harper, Robert, Ruppenicker* ... 393
**sized warp beam:** IR spectroscopy study of size content *Venkataraman, Bharati, Moraye* ... 449
**sonic modulus of:** relationship to abrasion resistance, friction, and fatigue parameters *Subramaniam, Muthukrishnan, Naik* ... 58
**twin spun yarns:** silk/cotton/scoured silk core *Matsumoto, Tsuchiya, Toriumi, Harakawa* ... 131
**with polyester staple core:** comparison of cotton covered/polyester staple-core yarns with 100% cotton *Sawhney, Harper, Ruppenicker, Robert* ... 71

**Cotton, Raw**
**fiber quality objectives of:** determining future cotton breeds *Meredith, Culp, Robert, Ruppenicker, Anthony, Willford* ... 715
**washing by the batch process:** dust from cottons washed by various processes *Perkins, Berni* ... 39

**Crimp**
**in nylon 66 carpet yarns:** as a cause of streaks: versus dyeability *Miller, Southern* ... 61

**Crosslinking**
**FT-IR study of:** ester crosslinking mechanism of cotton cellulose *Yang* ... 433
**of cuticular cells of wool:** shrink-resist treatments using multifunctional epoxides *Umehara, Shibata, Ito, Sakamoto, Miyamoto* ... 89

**Crosslinking Agents**
**for wool fabrics:** reactions of XLC: HPLC analysis and stripping tests *Smith, Spedding, Otterburn, Lewis, Allenach* ... 705

**Crystallinity**
**in PET and its copolyesters:** effect of degree of polymerization and copolymerized components *Takeda, Ehara, Sakai, Choi* ... 429
**of Saudi Arabian cotton:** native and chemically treated fibers *Khalifa, Abdel Zaher, Shoukr* ... 602

**Deformation**
**in roll-making operation:** analysis of: a dynamic case *Ghosh, Peng, Banks-Lee, Hamouda, Shin* ... 185
**in roll-making operation:** analysis of: a static case *Ghosh, Peng, Banks-Lee, Hamouda, Shin* ... 153
**of fiber assemblies:** theory of general deformation *Komori, Itoh* ... 588
**of fiber assemblies:** new approach to theory of fiber assembly compression *Komori, Itoh* ... 420
**of plain woven fabrics:** large-scale extension and recovery: theoretical study *Anandjiwala, Leaf* ... 619
**of plain woven fabrics:** large-scale extension and recovery: experimental and discussion *Anandjiwala, Leaf* ... 743
**the buckling wrinkle in fabrics:** geometry, mechanics, and characteristics *Shinohara, Ni, Takatera* ... 94
**the buckling wrinkle in fabrics:** model of a woven fabric cylinder in axial compression *Shinohara, Ni, Takatera* 100

**Delustering**
**titanium dioxide delustered PET:** alkaline hydrolysis of yarns *Solbrig, Obendorf* ... 177

**Diffusion**
**multiple porous membrane assembly:** diffusion of a disperse dye in *Sasaki, Kidoh, Karasawa* ... 266

**Dimensional Properties**
**of wool fabrics:** effects of structure and finishing on mechanical and dimensional properties *Wemyss, De Boos* 247

**Dyeing**
**of cotton as related to maturity:** review of maturity test methods for defects *Smith* ... 137
**of crosslinked wool:** reactions of XLC: HPLC analysis and stripping tests *Smith, Spedding, Otterburn, Lewis, Allenach* ... 705
**of nylon 66 carpet yarns:** as a cause of streaks: versus fiber crimp *Miller, Southern* ... 61
**of nylon carpet yarns:** effects of heat setting variables on streaks *Baxley, Miller* ... 697

**Dyes**
**azo pyridone dyes on polyester:** effects of substituent and aggregation on photofading *Wang, Wang* ... 162
**bleaching with sodium percarbonate:** decoloration of natural coloring matter and acid orange dye *Ohura, Katayama, Takagishi* ... 242
**direct dyeing of cotton:** dead cotton coverage *Smith* ... 226

**disperse dye diffusion:** in a multiple porous membrane assembly *Sasaki, Kidoh, Karasawa* ..... 266
**disperse dye migration:** wicking in textile capillary assemblies *Etters* ..... 397
**disperse dyes on silk:** concurrent sublimation transfer printing and finishing *Chavan, Nalankilli* ..... 461
**indigo on denim:** equilibrium sorption isotherms: effect of pH *Etters, Hou* ..... 773
**lateral migragion control of:** methyl cellulose gel on cottons during drying *Lambert, Harper* ..... 236
**nonionic dye solubility:** thermodynamics of dye solubility in water and PET *Biedermann, Datyner* ..... 637
**on wool keratin derivatives:** binding of acid and basic dyes to *Kim, Kono, Takagishi* ..... 476
**spinning of dyed cottons:** effect of lubrication on spinning properties *Berberi* ..... 285

**Energy Conservation**
**in cotton mercerization:** vacuum slot extraction of NaOH *Broadbent, Fecteau, Maisonneuve, Belkacemi* ..... 471

**Environmental Impacts**
**of polyester bottle material:** thermal degradation, hydrolysis, and photo-oxidation *Mohammadian, Allen, Edge, Jones* ..... 690

**Enzymes**
**for bleaching and softening jute:** pretreatment with polysaccharide degrading enzymes *Kundu, Ghosh, Chakrabarti, Ghosh* ..... 720

**Fading**
**of azo pyridone dyes on polyester:** effects of substituent and aggregation on photofading *Wang, Wang* ..... 162

**Fatigue**
**of cotton yarns:** sonic modulus: relation to abrasion resistance, friction, and fatigue parameters *Subramaniam, Muthukrishnan, Naik* ..... 58
**of PET tire cord:** Goodrich block fatigue test *Winkler* 441
**of wool and wool blend suiting:** analysis of mechanical fatigue phenomena in men's summer suiting *Yokura, Niwa* ..... 1

**Fiber Length**
**known cotton fiber arrays:** analysis by Peyer Texlab system *Hemstreet, Krowicki* ..... 223
**short fiber content in cotton:** mathematical fundamentals of fiber length distribution *Zeidman, Batra, Sasser* 21
**short fiber content in cotton:** measures from HVI data, statistical models *Zeidman, Batra, Sasser* ..... 106

**Fiber Morphology**
**of delustered PET:** alkaline hydrolysis of titanium dioxide delustered yarns *Solbrig, Obendorf* ..... 177

**Fiberglass**
**foam flow through fibrous materials:** effect of dynamic surface tension on flow *Hirt, Prud'homme, Rebenfeld* 47

**Finishing**
**alkaline hydrolysis of PET:** titanium dioxide delustered yarns *Solbrig, Obendorf* ..... 177
**of worsted woolens:** quality control using simple instruments *Ly, Tester, Buckenham, Roczniok, Adriaansen, Scaysbrook, de Jong* ..... 402

**Fluid Flow**
**foam flow through fibrous materials:** effect of dynamic surface tension on flow *Hirt, Prud'homme, Rebenfeld* 47

**Foams**
**foam flow through fibrous materials:** effect of dynamic surface tension on flow *Hirt, Prud'homme, Rebenfeld* 47

**Friction**
**air-jet texturing:** role of water: polyester feeder yarns with different frictional characteristics *Kothari, Sengupta, Rengasamy* ..... 495
**friction spinning machine:** variations in yarn properties caused by design changes *Rust, Lord* ..... 645
**in air-jet looms:** analysis of air flow in air-jet filling insertion *Adanur, Mohamed* ..... 253
**in air-jet looms:** analysis of yarn tension in air-jet filling insertion *Adanur, Mohamed* ..... 259
**in air-jet texturing:** role of water: nylon 6 yarns conditioned in different environments *Kothari, Sengupta, Rengasamy* ..... 575
**in fibrous materials:** structural model to characterize viscoelastic deformation *Gupta, El Mogahzy* ..... 547
**mechanics of friction twisting:** application of single disc model to multi-disc spindle *Du, Hearle* ..... 347
**mechanics of friction twisting:** yarn path, tension, and torque generation in a single disc *Du, Hearle* ..... 289

**Geometry**
**nonlinear yarn bending behavior:** large-scale extension and recovery of plain woven fabrics *Anandjiwala, Leaf* 619
**of a lockstitch seam:** theoretical study *Amirbayat* ..... 119
**of fiber compression:** new approach to theory of fiber assembly compression *Komori, Itoh* ..... 420
**of fiber deformation:** theory of general deformation of fiber assemblies *Komori, Itoh* ..... 588
**of plain woven fabrics:** large-scale extension and recovery: experimental and discussion *Anandjiwala, Leaf* ... 743
**of the buckling wrinkle in fabrics:** mechanics and characteristics *Shinohara, Ni, Takatera* ..... 94
**of the buckling wrinkle in fabrics:** model of a woven fabric cylinder in axial compression *Shinohara, Ni, Takatera* 100
**of the shed-shape characteristic:** constraints on filling insertion timing *Dawson* ..... 328

**Geotextiles**
**polyester bottle material:** environmental degradation of *Mohammadian, Allen, Edge, Jones* ..... 690

**Ginning**
**mechanical cleaning of cotton:** effects on fibers: combinations of gin and mill cleaning: fiber quality *Bel, Simpson, Columbus, Vinyard* ..... 503
**of cotton fibers:** effects of mechanical cleaning *Bel, Columbus, Bragg, Robert* ..... 83

**Grafting**
**acrylic acid grafting of polyester:** surface free energies, FT-IR(ATR), and ESCA characterization *Kawase, Uchita, Fujii, Minagawa* ..... 146
**graft copolymerization of jute:** influence of glycine on kinetics initiated by ceric ion *Nayak, Das, Singh* .... 466
**surface-modified polyester:** antistatic properties of fabrics: UV-induced graft polymerization *Uchida, Uyama, Ikada* ..... 483

**Handle**
**an empirical model for:** objective assessment of light weight dress fabrics *Raheel, Liu* ..... 31
**an empirical model for:** subjective assessment of light weight dress fabrics *Raheel, Liu* ..... 79
**of insulative fill materials:** evaluation of milkweed floss as an insulator *Crews, Sievert, Woeppel, McCullough* 203

**Heat Setting**
**of nylon carpet yarns:** effects of Suessen heat setting variables on streaks *Baxley, Miller* ..... 697
**of nylon 66 carpet yarns:** NIR analysis of structural properties *Rodgers, Lee* ..... 531

**Heat Transfer**
**coolness to touch of fabrics:** properties influencing thermal touch sensations *Schneider, Holcombe* ..... 488
**through layered fabrics:** dynamic water vapor and heat transport: effect of surface modification *Wang, Yasuda* 10

**High Volume Instruments**
**automating the Arealometer:** examining the Kozeny equation *Duckett, Cain, Krowicki, Thibodeaux* ..... 309

**cotton tenacity measurements:** computerized model to measure at different extension rates *Godbey, Taylor, Brown* ... 452
**short fiber content in cotton:** measures from HVI data, statistical models *Zeidman, Batra, Sasser* ... 106
**technological value of cotton:** statistical approach using HVI fiber properties: comments on *Barella, Castro, Gelabert, Manich* ... 555

**Image Analysis**
**of carpet appearance:** evaluation using image enhancement techniques *Wu, Pourdeyhimi, Spivak* ... 407
**of carpet appearance loss:** assessing changes in texture periodicity: gray level co-occurrence analysis *Sobus, Pourdeyhimi, Gerde, Ulcay* ... 557

**Infrared**
**continuous infrared dryer:** statistical analysis of: drying of a cotton web *Thérien, Côté, Broadbent* ... 193
**FT-IR(ATR) of grafted polyester:** surface free energies, ESCA characterization *Kawase, Uchita, Fujii, Minigawa* ... 146
**FT-IR photoacoustic spectroscopy:** to characterize ester crosslinkages in cotton cellulose *Yang* ... 298
**FR-IR spectroscopy of cotton:** ester crosslinking mechanism *Yang* ... 433
**NIR analysis of carpet yarns:** structural properties of nylon 66 yarns *Rodgers, Lee* ... 531
**pilot scale drying range:** measuring water content of textiles using a radio frequency sensor *Côté, Forget, Thérien, Broadbent* ... 724
**to estimate size content:** IR spectroscopy study of sized warp beam *Venkataraman, Bharati, Moraye* ... 449

**Insectproofing**
**for woolens:** deltamethrin spray to combat carpet beetle and clothes moth *Veer, Prasad, Rao* ... 655

**Insulation**
**milkweed floss for:** evaluation and comparison with other insulative fill materials *Crews, Sievert, Woeppel, McCullough* ... 203

**Jute**
**enhanced bleaching and softening:** pretreatment with polysaccharide degrading enzymes *Kundu, Ghosh, Chakrabarti, Ghosh* ... 720
**graft copolymerization of:** influence of glycine on kinetics initiated by ceric ion *Nayak, Das, Singh* ... 466

**Keratin**
**wool keratin derivatives:** binding of acid and basic dyes *Kim, Kono, Takagishi* ... 476

**Kinetics**
**graft copolymerization of jute:** influence of glycine on kinetics initiated by ceric ion *Nayak, Das, Singh* ... 466

**Lasers**
**laser diffraction of wovens:** to measure parameters of fine-mesh woven textiles *Sodomka, Komrska* ... 232

**Light Phenomena**
**to detect wool contaminants:** integrating sphere illumination apparatus *Chudleigh* ... 568

**Lightfastness**
**of bleached wool fabric:** shrink resistance and improved lightfastness: aqueous treatment *Levene, Kohanowski, Avichai* ... 581

**Lint**
**mechanical cleaning of:** effect on fibers: minimum, intermediate, and maximum gin cleanings *Bel, Columbus, Bragg, Robert* ... 83
**mechanical cleaning of:** effects on fibers: combinations of gin and mill cleaning: fiber quality *Bel, Simpson, Columbus, Vinyard* ... 503

**Liposomes**
**for wool chlorination:** stability of liposomes and application on wool *de la Maza, Parra, Bosch* ... 357

**Looms**
**air-jet:** analysis of air flow in air-jet filling insertion *Adanur, Mohamed* ... 253
**air-jet:** analysis of yarn tension in air-jet filling insertion *Adanur, Mohamed* ... 259
**shed-shape characteristic:** constraints on filling insertion timing *Dawson* ... 328
**the beat-up process:** dynamic analysis of: theoretical prediction *Dao, Bullerwell, Mohamed* ... 760
**water jet loom:** measuring beat-up force *Bullerwell, Mohamed* ... 214

**Man-Made Fibers**
**single-strand yarn tenacity data:** comments on two papers on cotton yarns: method applied to synthetics *De Luca, Thibodeaux* ... 306

**Mathematical Analysis**
**an empirical model for fabric hand:** objective assessment of light weight dress fabrics *Raheel, Liu* ... 31
**empirical model for fabric hand:** subjective assessment of light weight dress fabrics *Raheel, Liu* ... 79
**global modeling of a textile process:** used to optimize desizing of cellulosics *Polo, Pepio* ... 114
**of a lockstitch seam:** theoretical study of geometry *Amirbayat* ... 119
**of a twisted structure:** experiment on a two-filament twisted wire *Wu, Chen* ... 635
**of air-jet textured spun yarns:** effect of process variables on properties of yarns with different structures *Sengupta, Kothari, Srinivasan* ... 729
**of continuous infrared dryer:** factorial analysis of *Thérien, Côté, Broadbent* ... 193
**of cotton fiber length distribution:** determining short fiber content *Zeidman, Batra, Sasser* ... 21
**of cotton maturity:** airflow through fiber plugs: linear density and maturity *Radhakrishnan, Neelakantan, Narasimham* ... 382
**of fabric deformation:** roll making operation: a dynamic case *Ghosh, Peng, Banks-Lee, Hamouda, Shin* ... 185
**of fabric deformation:** roll making operation: a static case *Ghosh, Peng, Banks-Lee, Hamouda, Shin* ... 153
**of fiber assemblies:** theory of general deformation *Komori, Itoh* ... 588
**of fiber compression:** new approach to theory of fiber assembly compression *Komori, Itoh* ... 420
**of friction in fibrous materials:** structural model to characterize viscoelastic deformation *Gupta, El Mogahzy* 547
**of friction twisting:** application of single disc model to multidisc spindle *Du, Hearle* ... 347
**of friction twisting:** yarn path, tension, and torque generation in a single disc *Du, Hearle* ... 289
**of laser diffraction:** to measure parameters of fine-mesh woven textiles *Sodomka, Komrska* ... 232
**of plain woven fabrics:** large-scale extension and recovery: theoretical study *Anandjiwala, Leaf* ... 619
**of short staple spinning:** effect of apron spacing and break draft on double-rove yarn quality *Subramaniam, Peer Mohamed* ... 280
**of sliver irregularities:** bispectra of idealized and three varieties of polyester sliver *Matsumoto, Toriumi, Tsuchiya, Harakawa* ... 334
**of the beat-up process:** dynamic analysis: theoretical prediction of force and warp tension *Dao, Bullerwell, Mohamed* ... 760

**Mechanical Properties**
**of air-jet fasciated yarns:** effects of machine variables on structure and properties *Lawrence, Baqui* ... 123

**of plain woven fabrics:** large-scale extension and recovery: experimental and discussion *Anandjiwala, Leaf* ... 743
**of poly/cotton composite yarns:** finishing and properties of fabrics from polyester staple-core/cotton-wrap yarns *Sawhney, Harper, Robert, Ruppenicker* ... 393
**of polymeric fibers:** stress relaxation and tensile modulus *van Miltenburg* ... 363
**of various cotton breeds:** genetic association of fiber characteristics with spinning *Meredith, Culp, Robert, Ruppenicker, Anthony, Williford* ... 715
**of wool and wool blend suiting:** analysis of mechanical fatigue phenomena in men's summer suiting *Yokura, Niwa* ... 1
**of wool fabrics:** effects of structure and finishing on mechanical and dimensional properties *Wemyss, De Boos* 247
**of wool fibers:** property structure correlations: three different breeds of sheep *Rama Rao, Gupta* ... 609
**of worsted woolens:** quality control using simple instruments *Ly, Tester, Buckenham, Roczniok, Adriaansen, Scaysbrook, de Jong* ... 402
**yarns from three spinning systems:** fabric properties: yarn failure as a function of gauge length *Realff, Seo, Boyce, Schwartz, Backer* ... 517

**Mechanics**
**of a twisted steel wire:** experiment on a two-filament twisted structure *Wu, Chen* ... 635
**of the buckling wrinkle in fabrics:** geometry and characteristics *Shinohara, Ni, Takatera* ... 94
**of the buckling wrinkle in fabrics:** model of a woven fabric cylinder in axial compression *Shinohara, Ni, Takatera* 100

**Mercerization**
**of cotton and blends:** vacuum slot extraction of NaOH *Broadbent, Fecteau, Maisonneuve, Belkacemi* ... 471

**Migration**
**of dyes in cotton during drying:** lateral migration control using methyl cellulose *Lambert, Harper* ... 236
**of fibers in fricion spinning:** variations in yarn properties caused by design changes in a friction spinning machine *Rust, Lord* ... 645
**of particulate dye mixtures:** wicking of disperse dyes in textile capillary assemblies *Etters* ... 397

**Milkweed**
**as an insulative fill material:** evaluation and comparison to other insulators *Crews, Sievert, Woeppel, McCullough* ... 203

**Mohair**
**fiber mixture analysis:** SEM round trial results on mohair/wool blends *Wortmann* ... 371

**Moisture Phenomena**
**hygral expansion in wool:** effect of drying conditions *Cookson, De Boos, Roczniok, Ly* ... 319
**in air-jet texturing:** nylon 6 yarns conditioned in different environments *Kothari, Sengupta, Rengasamy* ... 575
**in air-jet texturing:** polyester feeder yarns with different frictional characteristics *Kothari, Sengupta, Rengasamy* ... 495
**relaxation shrinkage of wool:** effect of different drying conditions *Cookson, Roczniok, Ly* ... 537
**sorption mechanism of Kevlar:** stoichiometry of water sorbed in various aromatic polyamides *Fukuda, Ochi, Miyagawa, Kawai* ... 668
**water content of textiles:** measuring with a radio frequency sensor after infrared drying *Côté, Forget, Thérien, Broadbent* ... 724

**Moisture Regain**
**birefringence of wool:** dependence on moisture regain *Gupta, Rama Rao* ... 510
**of wool fibers:** property structure correlations: three different breeds of sheep *Rama Rao, Gupta* ... 609

**Moisture Transfer**
**through layered fabrics:** dynamic water vapor and heat transport: effect of surface modification *Wang, Yasuda* 10

**Neps**
**and other cotton defects:** relationship of cotton maturity and dyeability *Smith* ... 137
**dead cotton specks:** coverage by direct dyes *Smith* ... 226

**Noise Reduction**
**tufted wool and acrylic carpets:** effect of pile parameters on noise absorption capacity *Shoshani, Wilding* ... 736

**Nonwovens**
**polypropylene carpet backing:** tensile viscoelastic properties of spunbonded backing *Schaff, Ogale* ... 386

**Nylon**
**air-jet textured:** role of water: yarns conditioned in different environments *Kothari, Sengupta, Rengasamy* ... 575
**carpet appearance:** texture evaluation using image analysis *Wu, Pourdeyhimi, Spivak* ... 407
**carpet yarns:** NIR analysis of structural properties *Rodgers, Lee* ... 531
**heat-set nylon carpet yarns:** effects of Suessen heat setting variables on streaks *Baxley, Miller* ... 697
**pesticide-contaminated fabrics:** SEM analysis: new technique for labeling pesticide *Shaw* ... 375
**streaks in nylon 66 carpet:** as correlated with fiber crimp and dyeability *Miller, Southern* ... 61

**Optics**
**laser diffraction:** to measure parameters of fine-mesh woven textiles *Sodomka, Komrska* ... 232
**to detect wool contaminants:** integrating sphere illumination apparatus *Chudleigh* ... 568

**Permeability**
**foam flow through fibrous materials:** effect of dynamic surface tension on flow *Hirt, Prud'homme, Rebenfeld* 47

**Pesticides**
**insect repellent for woolens:** deltamethrin spray to combat carpet beetle and clothes moth *Veer, Prasad, Rao* 655
**pesticide-contaminated fabrics:** SEM analysis: new technique for labeling pesticide *Shaw* ... 375

**Photochemistry**
**of azo pyridone dyes on polyester:** effects of substituent and aggregation on photofading *Wang, Wang* ... 162

**Photodegradation**
**of polyester bottle material:** thermal degradation, hydrolysis, and photo-oxidation *Mohammadian, Allen, Edge, Jones* ... 690
**of wool and wool/polyeter blends:** effects on mechanical properties *Baird, Carr, Holt* ... 210

**Polyamides**
**mechanical properties:** stress relaxation and tensile modulus of polymeric fibers *van Miltenburg* ... 363
**moisture sorption of fibers:** stoichiometry of water sorbed in various Kevlar fibers *Fukuda, Ochi, Miyagawa, Kawai* ... 668

**Polyester**
**acrylic acid grafted polyester surface:** surface free energies, FT-IR(ATR), and ESCA characterization *Kawase, Uchita, Fujii, Minagawa* ... 146
**air-jet textured spun yarns:** effect of process variables on properties of yarns with different structures *Sengupta, Kothari, Srinivasan* ... 729
**air-jet texturing of:** role of water: polyester feeder yarns with different frictional characteristics *Kothari, Sengupta, Rengasamy* ... 495

**and wool blends:** effect of photodegradation on mechanical properties *Baird, Carr, Holt* ..... 210
**bispectra of sliver irregularities:** mathematical analysis of three varieties *Matsumoto, Toriumi, Tsuchiya, Harakawa* ..... 334
**blends with polyethylene glycols:** abrasion and lint loss properties of *Vigo, Lamb, Kepka, Miller* ..... 169
**carpet appearance:** texture evaluation using image analysis *Wu, Pourdeyhimi, Spivak* ..... 407
**delustered yarns:** alkaline hydrolysis of titanium dioxide delustering *Solbrig, Obendorf* ..... 177
**dyeing with azo pyridone dyes:** effects of substituent and aggregation on photofading *Wang, Wang* ..... 162
**empirical model for fabric hand:** objective assessment of light weight dress fabrics *Raheel, Liu* ..... 31
**empirical model for fabric hand:** subjective assessment of light weight dress fabrics *Raheel, Liu* ..... 79
**environmental degradation of:** thermal degradation, hydrolysis, and photo-oxidation *Mohammadian, Allen, Edge, Jones* ..... 690
**false-twist texturing of:** mechanics of friction twisting: application of single disc model to multi-disc spindle *Du, Hearle* ..... 347
**mechanical properties:** stress relaxation and tensile modulus of polymeric fibers *van Miltenburg* ..... 363
**nonionic dye solubility in:** thermodynamics of dye solubility in water and PET *Biedermann, Datyner* ..... 637
**pesticide-contaminated fabrics:** SEM analysis: new technique for labeling pesticide *Shaw* ..... 375
**PET tire cord:** fatigue mechanism study using Goodrich block fatigue test *Winkler* ..... 441
**poly/cotton composites:** polyester staple-core/cotton-wrap yarns: finishing and properties of fabrics *Sawhney, Harper, Robert, Ruppenicker* ..... 393
**staple core yarns:** comparison of cotton covered/polyester staple-core yarns with 100% cotton *Sawhney, Harper, Ruppenicker, Robert* ..... 71
**surface-modified fabric:** antistatic properties: UV-induced graft polymerization *Uchida, Uyama, Ikada* ..... 483
**thermal crystallization of:** effect of degree of polymerization and copolymerized components *Takeda, Ehara, Sakai, Choi* ..... 429
**vapor and heat transport through:** layered fabrics: effect of surface modification *Wang, Yasuda* ..... 10

**Polyethylene**
**crosslinked glycols on cotton:** abrasion and lint loss properties of fabrics *Vigo, Lamb, Kepka, Miller* ..... 169

**Polymerization**
**graft polymerization of PET:** antistatic properties of surface-modified fabrics *Uchida, Uyama, Ikada* ..... 483
**thermal crystallization of PET:** effect of degree of polymerization and copolymerized components *Takeda, Ehara, Sakai, Choi* ..... 429

**Polypropylene**
**spunbonded nonwoven:** tensile viscoelastic properties of carpet backing *Schaff, Ogale* ..... 386
**vapor and heat transport through:** layered fabrics: effect of surface modification *Wang, Yasuda* ..... 10

**Porosity**
**foam flow through fibrous materials:** effect of dynamic surface tension on flow *Hirt, Prud'homme, Rebenfeld* 47
**multiple porous membrane assembly:** diffusion of a disperse dye in *Sasaki, Kidoh, Karasawa* ..... 266

**Printing**
**and finishing of silk:** concurrent sublimation transfer printing *Chavan, Nalankilli* ..... 461
**of surface-modified wool:** effect of corona discharge on wool and application to printing *Ryu, Wakida, Takagishi* 595

**Rayon**
**cotton/viscose yarns:** long staple viscose fibers on the surface and in the body: production and evaluation *Radhakrishnaiah, Arulselvan* ..... 755
**mechanical properties:** stress relaxation and tensile modulus of polymeric fibers *van Miltenburg* ..... 363

**Resins**
**in printing of silk:** concurrent sublimation transfer printing and finishing *Chavan, Nalankilli* ..... 461

**Scanning Electron Microscopy**
**of pesticide-contaminated fabrics:** new technique for labeling pesticide *Shaw* ..... 375
**of PET tire cord:** fatigue mechanism study using Goodrich block fatigue test *Winkler* ..... 441
**to analyze fiber mixtures:** round trial results on mohair/wool blends *Wortmann* ..... 371
**yarns from three spinning systems:** mechanical properties of fabrics: yarn failure as a function of gauge length *Realff, Seo, Boyce, Schwartz, Backer* ..... 517

**Sewing**
**lockstitch seams:** theoretical study of geometry *Amirbayat* 119

**Shrinkage**
**of wool fabrics:** measuring relaxation shrinkage: effect of different drying conditions *Cookson, Roczniok, Ly* 537

**Shrinkproofing**
**of bleached wool fabric:** improved lightfastness: aqueous treatment *Levene, Kohanowski, Avichai* ..... 581
**of wool by corona discharge:** effect on surface and application to printing *Ryu, Wakida, Takagishi* ..... 595
**of wool fabrics:** surfactants in wool chlorination *de la Maza, Sanchez Leal, Parra, Comelles* ..... 74
**treatments for wool:** water soluble multifunctional epoxides *Umehara, Shibata, Ito, Sakamoto, Miyamoto* ..... 89
**wool chlorination using liposomes:** stability of liposomes and application on wool *de la Maza, Parra, Bosch* 357

**Silk**
**printing and finishing of:** concurrent sublimation transfer printing *Chavan, Nalankilli* ..... 461
**twin spun yarns:** silk/cotton/scoured silk core *Matsumoto, Tsuchiya, Toriumi, Harakawa* ..... 131

**Sizing**
**method to estimate content:** IR spectroscopy to estimate content of sized warp beam *Venkataraman, Bharati, Moraye* ..... 449

**Sliver**
**bispectra of irregularities:** mathematical analysis of three varieties *Matsumoto, Toriumi, Tsuchiya, Harakawa* 334

**Solubility**
**of nonionic dyes:** thermodynamics of dye solubility in water and PET *Biedermann, Datyner* ..... 637

**Sorption**
**indigo on denim:** equilibrium sorption isotherms: effect of pH *Etters, Hou* ..... 773
**sorption mechanism of Kevlar:** stoichiometry of water sorbed in various aromatic polyamides *Fukuda, Ochi, Miyagawa, Kawai* ..... 668

**Spectroscopy**
**bispectra of sliver irregularities:** mathematical analysis of idealized and three varieties of polyester sliver *Matsumoto, Toriumi, Tsuchiya, Harakawa* ..... 334
**FT-IR photoacoustic spectroscopy:** to characterize ester crosslinkages in cotton cellulose *Yang* ..... 298
**of acrylic acid grafted polyester:** surface free energies, FT-IR(ATR), and ESCA characterization *Kawase, Uchita, Fujii, Minagawa* ..... 146
**to study esterification:** FT-IR study of ester crosslinking mechanism of cotton cellulose *Yang* ..... 433
**to study sizing content:** IR spectroscopy study of sized warp beam *Venkataraman, Bharati, Moraye* ..... 449

**Spinning**
**air-jet fasciated yarns:** effects of machine variables on structure and properties *Lawrence, Baqui* ..... 123
**cotton breed fiber quality:** genetic association of fiber characteristics with spinning *Meredith, Culp, Robert, Ruppenicker, Anthony, Williford* ..... 715
**friction spinning machine:** variations in yarn properties caused by design changes *Rust, Lord* ..... 645
**of cotton/viscose yarns:** long staple viscose fibers on the surface and in the body: production and evaluation *Radhakrishnaiah, Arulselvan* ..... 755
**of double-rove yarns:** effects of apron spacing and break draft on yarn quality in short staple spinning *Subramaniam, Peer Mohamed* ..... 280
**of dyed cotton fibers:** effect of lubrication on spinning properties *Berberi* ..... 285
**reducing spindle vibration:** optimizing design using finite element analysis *Banks-Lee, Emerson, Keltie, Tucker* 659
**three different technologies:** mechanical properties of fabrics from their yarns: yarn failure as a function of gauge length *Realff, Seo, Boyce, Schwartz, Backer* ..... 517
**twin spun yarns:** silk/cotton/scoured silk core *Matsumoto, Tsuchiya, Toriumi, Harakawa* ..... 131
**Splicing**
**performance of spliced yarns:** reply to comments on papers on the subject *Sharma* ..... 182
**Statistical Methods**
**analysis of infrared dryer:** factorial analysis of *Thérien, Côté, Broadbent* ..... 193
**dark fiber contamination in wool:** factors influencing detection in plain weaves *Foulds, Burbidge, McInnes* 342
**global modeling of a textile process:** to optimize desizing of cellulosics *Polo, Pepio* ..... 114
**to analyze cotton maturity:** airflow through fiber plugs: linear density and maturity *Radhakrishnan, Neelakantan, Narasimham* ..... 382
**to determine cotton values:** technological value using HVI fiber properties: comments on *Barella, Castro, Gelabert, Manich* ..... 555
**to measure hygral expansion in wool:** effect of drying conditions *Cookson, De Boos, Roczniok, Ly* ..... 319
**Surfactants**
**in wool chlorination:** Hercosett process for shrinkproofing *de la Maza, Sanchez Leal, Parra, Comelles* ..... 74
**peracetic acid bleaching of cotton:** effect of chain length of alkyl sufate surfactants *Rucker, Satterwhite* ..... 273

**Tenacity**
**single-strand tenacity data:** comments on two papers on cotton: method applied to synthetics *De Luca, Thibodeaux* ..... 306
**Tensile Properties**
**of cotton fibers and bundles:** interpretations of single fiber, bundle, and yarn data *Sasser, Shofner, Chu, Shofner, Townes* ..... 681
**of plain woven fabrics:** large-scale extension and recovery: experimental and discussion *Anandjiwala, Leaf* ... 743
**of plain woven fabrics:** large-scale extension and recovery: theoretical study *Anandjiwala, Leaf* ..... 619
**of polypropylene carpet backing:** viscoelastic properties of spunbonded nonwoven *Schaff, Ogale* ..... 386
**Texture**
**in carpets:** evaluation using image enhancement techniques *Wu, Pourdeyhimi, Spivak* ..... 407
**variations in carpet texture:** assessing changes in texture periodicity: gray level co-occurrence analysis *Sobus, Pourdeyhimi, Gerde, Ulcay* ..... 557

**Texturing**
**air-jet textured spun yarns:** effect of process variables on properties of yarns with different structures *Sengupta, Kothari, Srinivasan* ..... 729
**air-jet texturing:** role of water: nylon 6 yarns conditioned in different environments *Kothari, Sengupta, Rengasamy* ..... 575
**air-jet texturing:** role of water: polyester feeder yarns with different frictional characteristics *Kothari, Sengupta, Rengasamy* ..... 495
**false-twist texturing:** mechanics of friction twisting: application of single disc model to multi-disc spindle *Du, Hearle* ..... 347
**false-twist texturing:** mechanics of friction twisting: yarn path, tension, and torque generation in a single disc *Du, Hearle* ..... 289
**Thermal Properties**
**of wool fabrics:** properties influencing coolness to the touch *Schneider, Holcombe* ..... 488
**Thermodynamics**
**of nonionic dye solubility:** solubility in water and PET *Biedermann, Datyner* ..... 637
**Tire Materials**
**PET tire cord:** fatigue mechanism study using Goodrich block fatigue test *Winkler* ..... 441
**Twisting**
**air-jet fasciated yarns:** effects of machine variables on structure and properties *Lawrence, Baqui* ..... 123
**false-twist texturing:** mechanics of friction twisting: application of single disc model to multi-disc spindle *Du, Hearle* ..... 347
**false-twist texturing:** mechanics of friction twisting: yarn path, tension, and torque generation *Du, Hearle* .... 289
**twisted steel wire:** experiment on a two-filament twisted structure *Wu, Chen* ..... 635
**versus yarn tenacity:** comments on two papers on cotton: method applied to synthetics *De Luca, Thibodeaux* 306

**Wear**
**of wool and wool blend fabrics:** analysis of mechanical fatigue phenomena in men's summer suiting *Yokura, Niwa* ..... 1
**Weaving**
**air-jet filling insertion:** analysis of air flow *Adanur, Mohamed* ..... 253
**air-jet filling insertion:** analysis of yarn tension *Adanur, Mohamed* ..... 259
**beat-up process:** dynamic analysis of: theoretical prediction *Dao, Bullerwell, Mohamed* ..... 760
**fine-mesh wovens:** laser diffraction to measure parameters of *Sodomka, Komrska* ..... 232
**the shed-shape characteristic:** constraints on filling insertion timing *Dawson* ..... 328
**water jet loom:** measuring beat-up force *Bullerwell, Mohamed* ..... 214
**Wool Fabrics**
**coolness to the touch:** properties influencing thermal touch sensations *Schneider, Holcombe* ..... 488
**corona discharge on:** effect on surface and application to printing *Ryu, Wakida, Takagishi* ..... 595
**crosslinking agents for:** reactions of XLC: HPLC analysis and stripping tests *Smith, Spedding, Otterburn, Lewis, Allenach* ..... 705
**dark fiber contamination in:** factors influencing detection in plain weaves *Foulds, Burbidge, McInnes* ..... 342
**dimensional stability of:** effects of structure and finishing on mechanical and dimensional properties *Wemyss, De Boos* ..... 247

**hygral expansion measurements:** effect of drying conditions *Cookson, De Boos, Roczniok, Ly* ..... 319
**insect repellent for:** deltamethrin spray to combat carpet beetle and clothes moth *Veer, Prasad, Rao* ..... 655
**men's summer suiting fabrics:** analysis of mechanical fatigue phenomena *Yokura, Niwa* ..... 1
**photodegradation of:** effects on mechanical properties *Baird, Carr, Holt* ..... 210
**quality control of:** simple instruments for finishers and tailors *Ly, Tester, Buckenham, Roczniok, Adriaansen, Scaysbrook, de Jong* ..... 402
**relaxation shrinkage of:** effects of different drying methods *Cookson, Roczniok, Ly* ..... 537
**shrink-resist treatments:** using water soluble mutifunctional epoxides *Umehara, Shibata, Ito, Sakamoto, Miyamoto* 89
**shrinkproofing of:** surface whitened cloth of improved lightfastness: aqueous treatment *Levene, Kohanowski, Avichai* ..... 581
**shrinkproofing of:** surfactants in wool chlorination *de la Maza, Sanchez Leal, Parra, Comelles* ..... 74

**Wool Fibers**
**birefringence of:** dependence on moisture regain *Gupta, Rama Rao* ..... 510
**chlorination using liposomes:** stability of liposomes and application on wool *de la Maza, Parra, Bosch* ..... 357
**colored contaminants in:** integrating sphere illumination to detect *Chudleigh* ..... 568
**fiber mixture analysis:** SEM round trial results on mohair/wool blends *Wortmann* ..... 371
**property structure correlations:** comparison of wool from three different breeds of sheep *Rama Rao, Gupta* ... 609
**tufted carpets from:** noise absorption capacity of: effect of pile parameters *Shoshani, Wilding* ..... 736
**wool keratin derivatives:** binding of acid and basic dyes to *Kim, Kono, Takagishi* ..... 476

**Wrinkling**
**the buckling wrinkle in fabrics:** geometry, mechanics, and characteristics *Shinohara, Ni, Takatera* ..... 94
**the buckling wrinkle in fabrics:** model of a woven fabric cylinder in axial compression *Shinohara, Ni, Takatera* 100

**X-Ray Diffraction**
**crystallinity of cotton fibers:** native and chemically treated Saudi Arabian cotton *Khalifa, Abdel-Zaher, Shoukr* 602
**of various Kevlar fibers:** moisture sorption mechanism: stoichiometry of sorbed water *Fukuda, Ochi, Miyagawa, Kawai* ..... 668

**Yarns**
**performance of spliced yarns:** reply to comments on papers on the subject *Sharma* ..... 182

**Yellowing**
**of photodegraded wool/polyester:** effects on mechanical properties *Baird, Carr, Holt* ..... 210
